"Notice to Owner" Section 7018-5 (Contractors License Law) Under the mechanics Lien Law any contractor , subcontractor, laborer, material man or other person who helps to improve your property and is not paid for his labor , services or material has a right to enforce his claim against your property. Under the law, you may protect yourself against such claims by filing, before commencing such work or improvement, an original contract for the work of improvement or a modification thereof , in the office of the county recorder of the county where the property is situated and requiring that a contractor's payment bond be recorded in such office. Said bond shall be in a amount not less than fifty percent (50%) of the contract price and shall in addition to any conditions for the performance of the contract be conditioned for the payment in full of the claims of all person's furnishing labor, services, equipment or materials for the work described in said contract. Owner may cancel this contract within 3 days upon signing. "Contractors are required by law to be licensed and regulated by the Contractors State License Board, which has jurisdiction to investigate complaints against contractors if a complaint regarding a patent act or omission is filed within four years of the date of the date of the alleged violation. Complaint regarding a latent act or omission pertaining to structural defects must be filed within ten years of the date of the alleged violation. Any questions concerning a contractor may be referred to the Register Contractors State License Board, P.O. Box 26000, Sacramento, California 95826"

\$31,350 is a representative number of what the prices are in Tehachapi and the surrounding areas for a 400 s.f. garage with the amennities stated in the contract. As of Aug 2008 building prices are around \$78.37 s.f. which is what I think is right in line with what builders are asking for on small projects such as this one. Note: Hillside or any unconventional circumstances would be at additional charges. Note: Previous update was in July 2007 and the average s.f. prices were about \$67.50 s.f. at that time (that's about a 15% increase which the largest costs were in concrete, roofing, framing siding and glass. Permits & Plans went up due to new fire codes. (attached garage add around 10%) This is for illustrative purposes only.
